The new KAISER cavity wall installation boxes with proven mounting lug technology and improved product features. A practical design and a large selection of cable and conduit entries allow a large number of applications. Additional boxes for installation in thinly boarded walls or solid wood walls complete the wide range. VDE certification documents the high level of quality.

· Screws ensure permanent fixing
· Entries can be broken out for cables and conduits
· Combinable and through-wiring by using support connectors
· Fixing of devices by means of pre-mounted device screws

O·range® IP 30 850 °C
