Logic units to ensure safety functions [AS Interface safety slave URAX] intended to evaluate electrical sensors.

Type designations: URAX-A1, -A1R, -B1R, -C1, -C1R, -D1R and -E1.

Batch numbers: 01-00000...99-99999

Used harmonized standards    EN 62061, EN ISO 13849-1, EN 574,  
                                                 EN 60204-1, EN 50178,  
                                                 EN 61000-4-2, -3, -4, -5, -6  
                                                 EN 55011

Other used standards and        IEC/EN 61508-1..7  
documents

EC Type-Examination           TÜV NORD CERT GmbH  
                                                 Langemarckstrasse 20,  
                                                 D-45141 Essen  
                                                 Germany

Notified body No. 0044

Certificate no                      44 205 11 390992 000
