A schematic diagram of a cell. The cell is represented by a large blue circle. Inside the cell is a grey nucleus. Within the nucleus is a red nucleolus. The nucleolus contains a cluster of white dots. The nucleus also contains a cluster of white dots. The cell membrane is represented by a thin black line. The labels 'BU' and 'BN' are present. 'BU' points to the blue area (cell membrane) and 'BN' points to the red area (nucleolus). A dimension line at the bottom indicates the radius r from the center to the cell membrane.
