

- **Fieldbus cable, type A, acc.to IEC 61158-2**
- **PVC jacket, orange**
- **Oil, gas and sunlight resistant**
- **Temperature range -40...+75 °C**
- **Cable cross section: 18/7 AWG (0.8 mm²)**
- **7/8" female, straight, stainless steel**
- **7/8" male, straight, stainless steel**
- **Cable length 10 m**

A schematic diagram of a cell, labeled (b). The cell is represented as a large orange circle. Inside, there is a grey region containing two smaller circles: a brown one at the top and a cyan one at the bottom. Both the brown and cyan circles contain a cluster of small white dots. The grey region is surrounded by a layer of small grey dots. Labels with leader lines point to 'BU' (the grey region), 'BN' (the layer of small grey dots), and 'OG' (the orange outer region). A dimension line at the bottom indicates a width of 8.
