## Description

- Innovative metal and plastic housing design
- Housing in plastic or metal version. For power supply in the smallest possible space

## General characteristics

|                             |                                            |
|-----------------------------|--------------------------------------------|
| Series                      | H-A 3                                      |
| Version                     | Hood M20                                   |
| Locking mechanism           | bolts for single lever                     |
| Cable entry                 | straight                                   |
| Cable gland                 | yes                                        |
| Cable gland, clamping range | 3,0 – 13,5 mm                              |
| Protection rating           | IP 65 (latched)                            |
| Temperature range           | -40 °C to +100 °C, short-term up to +125°C |

## Materials and surfaces

|                        |                      |
|------------------------|----------------------|
| Housing, base material | Zinc die-casting     |
| Housing, surface       | powder-coating, grey |
| Gasket                 | NBR                  |

## Approvals

|                            |      |
|----------------------------|------|
| VDE-Approval, VDE-REG.-Nr. | B437 |
|----------------------------|------|

## Standard

|                 |           |
|-----------------|-----------|
| Safety Standard | IEC 61984 |
|-----------------|-----------|

|                                           |                                       |             |

## Technical Drawings

Industrial machinery and plant engineering

Mechanical resistance

Robust

Waterproof

### Info

Compact, robust metal housings size H-A 3

### Application range

Machine and equipment manufacturing  
Control engineering  
Electronic laboratory

### Remark

Photographs are not to scale and do not represent detailed images of the respective products.
